The Church Copyright License Advantage

The Church Copyright License is the most comprehensive, convenient, and cost effective means of copyright clearance available for songs used in congregational singing. As a license holder, you have the advantage of creating your own worship aids, custom tailored to your church's specific needs, especially since the Church Copyright License covers a vast selection of song titles to keep your worship services fresh and creative. For an additional fee, you can also add an online [SongSelect](#) Service, giving you the ability to print and download lyrics from over 75,000 songs in our database and listen to thousands of 30-second sound samples (Basic/Advanced) plus the privilege of printing and downloading up to 200 lead sheets per year (Advanced).

What You Can Do:

(What the License covers)

- Print songs, hymns and lyrics in bulletins, programs, liturgies and songsheets for use in congregational singing.
- Create your own customized songbooks or hymnals for use in congregational singing.
- Create overhead transparencies, slides, or use any other format whereby songs are visually projected (such as computer graphics and projection) for use in congregational singing.
- Arrange, print and copy your own vocal or instrumental arrangements of songs for congregational use, where no published version is available.
- Record your worship services by audio or video means, provided you only record "live" music (instrumental and vocal). Accompaniment tracks cannot be reproduced. You may also charge up to \$4.00 (U.S.) / \$5.00 (CAN) each for audio tapes and CDs, and \$12.00 (U.S.) / \$15.00 (CAN) each for video tapes. *The quantity of recorded copies allowed cannot exceed 15% of the maximum number of your church size category.*

What You Cannot Do:

(What the License does not cover)

- Photocopy or duplicate octavos, cantatas, musicals, handbell music, keyboard arrangements, vocal scores, orchestrations or other instrumental works.
- Translate songs from one language to another. This can only be done with the approval of the respective copyright owner.
- Rent, sell, lend, or distribute copies made under the Church Copyright License to individuals or groups outside the church, or to other churches. However, you may distribute tapes to shut-ins, missionaries, or others outside the church.
- Assign or transfer the Church Copyright License to any other church or group without CCLI's approval.

This is an annual license

All terms are in effect only when the license is active. If the license is not renewed, all rights are terminated effective on the expiration date, and all song copies made under the license agreement must be destroyed. For more details, see the [Terms of Agreement](#). Should you have questions or desire further information regarding the Church Copyright License, please email Customer Service at support@ccli.com.

IMPORTANT: This license does not convey the right to photocopy octavos, cantatas, musicals, orchestrations, vocal scores, handbell music or other instrumental arrangements.

Essential Information

Congregational Single Song Sheet (CSS):

A CSS is a single song which is found in a compilation of songs intended for congregational use (i.e., a hymnal or chorus book). These songs can be photocopied into bulletins, congregational songbooks, congregational songsheets, or placed on a slide or transparency. However, the above activity only applies if the song owner is covered under the Authorized Catalog List, and only if the purpose is to assist the congregation in singing.

Customer Support:

If you have any questions or comments concerning the Church Copyright License, please feel free to email Customer Service at support@ccli.com or call 1-800-234-2446.

Recording Your Services:

One of the rights granted to you with the Church Copyright License is the right to record your worship service. This right includes recording your meditations, preludes, postludes, interludes, fanfares, plus handbell, vocal and instrumental specials. Please be sure to report these when it is your time to complete a Copy Report.

Rehearsal Tapes:

If you would like to make rehearsal tapes for the purpose of having your choir or orchestra learn the music, you must contact the administrator directly for this activity. There are no exceptions regarding this issue.

Copyright Notice:

License Holders are responsible for including a copyright notice on all songs reproduced under the Church Copyright License. The copyright notice should include song title, writer credit(s) and copyright information as follows:

"Hallelujah"
Words and music by John Doe
©2000 Good Music Co.
CCLI License #

Accompaniment tracks:

In order to record an accompaniment track, you will need permission from the producer of the accompaniment track. An accompaniment track has two copyright owners - the owner of the song on the track, and the company that produced the accompaniment track. Your Church Copyright License covers the song if it is from the [Authorized Catalog List](#), but it does not cover the copying of the actual accompaniment track itself. Permission would need to be obtained from the producer of the accompaniment track.

Visual Layout:

We have provided a sample layout of a projection (slide or transparency) print, bulletin or songsheet for your convenience. Please be sure to list the copyright information of the song at the bottom of your copy as shown.

Hallelujah

Hallelujah
Hallelujah
Let heaven and earth sing Hallelujah
Glory to the Risen King, Hallelujah

Frequently Asked Questions

How Can I Tell If A Song Is Covered?

First, locate the copyright information for the song, usually listed at the bottom of the page or in the liner notes of the recording. After you have determined the copyright owner, then refer to the [Authorized Catalog List](#). If the copyright owner (catalog) is listed, then the song is covered. If the copyright owner (catalog) is not listed, you may email Customer Service (support@ccli.com) for more information. SongSelect subscribers can also use the SongSelect search engine to easily verify covered songs.

What Can I Photocopy?

The Church Copyright License covers the photocopying of Congregational Single Songsheets (CSS) only. A CSS is a single song which is found in a compilation of songs intended for congregational use (i.e., a hymnal or chorus book, and also the online collection of lead sheets through SongSelect). These songs can be photocopied for the purpose of assisting in congregational worship, and if they are owned by one of the member copyright owners of CCLI, listed in the [Authorized Catalog List](#).

How Will I Know When It's My Church's Turn To Report Copy Activity?

According to the Terms of Agreement of your Church Copyright License, your church is required to report copy activity for a six-month period, once every 2-1/2 years. When it is your church's turn to report, we will send you a notification letter, which includes easy instructions on how to log in and report your church's copy activity online.

Are There Other Reporting Options?

To ensure the most complete, accurate reporting possible, we request that—when you are notified that it's your turn to report—you report online through our website at www.ccli.com/copyreport. We cannot accept any other method of reporting copy activity.

During our report period, how do we report copy activity for SongSelect Lead Sheet Downloads?

You do not need to report the download activity itself. CCLI tracks each song download and pays royalties accordingly to each song owner. If, however, you use a Lead Sheet as a master copy for a bulletin insert, projection master, or as part of a print collection, you will need to report it as such.

Does The Church Copyright License cover music we want to use on our church website?

By its nature, a website is accessible far beyond the boundaries of a local church congregation. Since the Church Copyright License includes no provisions for broadcast rights, the use of copyrighted music or lyrics is not covered by the Church Copyright License. If you would like to include music on your church website, you need to secure the proper performance licenses.

Our worship team wants to record a worship CD. Does The Church Copyright License Cover That?

The Church Copyright License only allows you to record your live worship services (audio or video), provided you record live music. Accompaniment tracks cannot be reproduced. You may charge up to \$4 each (\$5 in Canada) for audiocassette tapes and CDs, and up to \$12 each (\$15 in Canada) for videotapes.

These parameters are intended to cover the basic congregational needs of a church's recording ministry and are not designed for commercial purposes.

Will we automatically receive a Church Copyright License Renewal Notice Each Year?

Yes, you will receive a renewal notice through the mail approximately 75 days prior to your expiration date. For your convenience, we have attached the renewed license certificate to your renewal notice. The certificate becomes valid once we receive your payment.

If We Had Transparencies Or Slides Before We Joined CCLI, Do We Need To Go Back And Redo Them?

Not right away. We ask that when you become a License Holder you begin to put the proper information on your transparencies or slides, making sure to include your license number. We would like you to eventually have them all up to date, so please make the appropriate changes as quickly as you can.

Church Video License

Most of us fast-forward right through that FBI WARNING screen before the video feature. Ever wonder what it actually says? Basically, it explains that the video is authorized for personal, home-viewing only. Showing any portion of that video in any other setting, including a church, without specific authorization can result in major fines for copyright infringement.

Therefore, CCLI and Motion Picture Licensing Corporation (MPLC) have partnered together to create Christian Video Licensing International (CVLI) and the Church Video License. The Church Video License provides legal coverage for churches to show thousands of pre-recorded videos and DVDs.

For complete producer lists and prices, call 1-888-771-CVLI (2854) or visit www.cvli.org.

Appendix A. Authorized Catalog List

This section lists the catalogs (copyright owners) of the songs covered by the Church Copyright License. The Authorized Catalog List helps you determine whether a song is covered under the Church Copyright License. Please be sure to use the Authorized Catalog List to check whether a catalog is covered under the Church Copyright License before you copy one of their songs.

How to Use the Authorized Catalog List

1. Find the catalog or individual owner information (usually at the bottom of the page in your hymnal or chorus book) of the song you wish to copy.
2. Refer to the Authorized Catalog List to determine if the catalog or the individual owner of the song is listed.
3. If the catalog or individual owner is located in the Authorized Catalog List, the song is covered under the Church Copyright License, and you may make copies (in accordance with the terms of the license agreement).
4. If the catalog is identified with an asterisk (*), this is referred to as a Selected Titles Catalog. These are catalogs that have a select list of songs covered under the Church Copyright License. Please contact Customer Service to determine specific songs covered for Selected Titles Catalogs.
5. If the catalog or individual owner is not located in the Authorized Catalog List, then the song you wish to copy may not be covered. For further information on the song or catalog, check our web site (<http://www.ccli.com/>) or contact Customer Service at support@ccli.com or 1-800-234-2446.

Please note: The Authorized Catalog List is regularly updated on the CCLI web site at <http://www.ccli.com/>.
